Halcyon

Volume I, 1968

William Rainey Harper College

Palatine/Elk Grove, Illinois

. . . dedication

*Peace . . . poems are composed praising it,
songs are sung advocating it, marches are staged
pleading for it, and prayers are offered in hopes
of finding it. Peace is that intangible ideal that we
try to make visible through understanding.
Without it, we cannot hope to have a future.*

*We of the 1968 HALCYON staff wish to dedicate our
first publication, just as we should all dedicate our lives,
to the quest for peace through understanding . . .
understanding of others stemmed through the
understanding of ourselves. Only by first discovering
who we are can we then understand who others are.*

*If dedication to understanding is affirmed,
the serenity of peace can be manifested.*

tered. At the student services
I was informed that
she does have a car—and
had one for nearly a year!

Frances Palmer, secre-
tary to Dean of Students, Dr.
Harvey, laughed when

I told her I wanted to do a story on the car. Dr. Harvey even allowed a chuckle to slip.

Mrs. Palmer keeps the re-
cords on the car. As she
thumbed through requisition
slips and other data in a fat
folder, I began to think that
this poor vehicle was just a
registration number and not
a thing at all.

The car is a Chevrolet sta-
tion wagon that is leased for
a two-year period from Latof-

has popped up in such cities
as DeKalb and Peoria, ranging
as far as Michigan and Wis-
consin. All trips are recorded
in a log showing who has used
the car and where they went.

So the "mystery" around
Harper's station wagon has
been dispelled. But even those
responsible for it are not
sure about it.

G. Galin Berrier

Coast league.

Berrier's opportunity came in 1962 when he was selected as one of 87 instructors for the John Hay Fellow program. This sends instructors to school for a year with all expenses paid plus a regular teaching salary.

Schools like Harvard, Columbia, Northwestern and the University of California at Berkeley participated.

"I chose Berkeley because it didn't have snob appeal. It's the best university in the country least it was then," ex-Berrier.

He learned more than can be squeezed from a

Peat Moss Grows, But Not Weather

Harper College's new future is again on solid ground.

The Corbett Construction Company reported that the moss deposits found on the construction site have been moved.

Those deposits under parking lots and under the corners of two buildings cause a serious construction lay, said Corbett.

The main delays have been caused by the bad weather more than anything else. A rough estimate indicates weather costs a week of construction time.

HALCYON '68

Part of college is forming traditions, and the 1968 HALCYON staff proceeded to establish a format that will hold for coming years.

Although small in number, the staff put forth a tremendous effort to make Harper College's first yearbook one to be proud of.

At the beginning of the school year, the staff sponsored a campaign for art and literature to promote interest.

Editor-in-chief Judy Ressler and managing editor Pat Tenerowicz performed the composing—from organizing schedules, to writing copy, to laying out pages.

College years are memorable, and the 1968 HALCYON will preserve these memories for the students.

Student Government

The Interim Student Assembly of Harper College was formed last spring. From the time of its origin, this government has begun to establish policies and traditions that will remain with future governments at the college.

The government wrote a constitution, a set of procedures that will be followed by future governments. The name Student Senate of Harper College, or the SSHC, was officially designated and adopted.

The SSHC has a long way to travel before perfection is reached; however, the progress made during 1967-68 will be valuable in achieving its goals.
